¹ As a TCAP member, the City's provider will be Direct Energy. Some TCAP members may receive electric service on some city accounts from electric cooperatives. If this is the case, indicate all electric providers that provide service for city accounts and the total amount of electricity consumed by the city.

² If the City is a municipal water supplier and does not purchase water, simply note the amount of water consumed and report that as a self supplier, no municipal funds are expended to purchase water for municipal services.
