# **Operations**

The Public Works Department consists of several divisions including Street
Maintenance, Water Supply and Treatment,
Water Distribution, Environmental Services,
and Wastewater Treatment. The services
provided by this department often go
unnoticed. Public Works serves every
residence and business in the City and has
someone available 24/7 when needed.

### What We Do

The City of Crockett Public Works Department strives daily to meet all our citizen's needs. We work closely with other city departments coordinating and organizing routine daily work. Public Works is responsible for the activities of several departments to provide services including, but not limited to, the following:

- City Street Repair/Maintenance
- City Road Hazard/Obstruction Removal
- City Street Right-of-Way Maintenance
- Culvert Installation
- Sewer Problems
- Water Leak Repairs/Quality Issues
- Utility Line Locate
- Utility Installation
